

ALBION STONE

portland stone - naturally

## The Avenues Kuwait

**Architect/Designer:**  
Gensler

**Client:**  
Al-Rai Estate Co.W.L.L

**Portland Stone:**  
Jordans Basebed

**Location:**  
Kuwait

**Scope of Project:**  
Construction of new large  
shopping centre

Opened in 2007, The Avenues is one of the largest malls in the world with more than 800 stores spread over the 7 districts.

Albion Stone supplied 540m<sup>2</sup> of Portland Jordans Basebed for the prestigious 'Grand Avenue' district in the form of internal flooring and cladding to shop facades.

Walking down the tree-lined Grand Avenue is much like walking down a grand shopping boulevard in the centre of Europe. The Architecture of the retail facades features three styles – European, local and contemporary. The Grand Avenue Boulevard is covered with a transparent roof structure that reinforces and enhances the feeling of being outdoors.
