ALBION STONE

6-9 Donegall Square, Belfast

Architect/Designer:
Building Design Partnership

Client:
Metro Building

Main Contractor:
Graham Construction

Location:
**Donegall Square South,
Belfast**

Portland Stone:
Bowers (Lynham) Whitbed

Scope of Project:
**Construction of new
commercial office
building.**

Completed in early 2004, this eight storey office building is situated on a prominent city centre site on the corner of Donegall Square South and Linenhall Street in Belfast.

The project team from Building Design Partnership came down to visit Albion Stone's quarries to view the large Sample Panels. This helped them agree a stone range for the project.

Here, Portland Bowers Lynham Whitbed was decided for use on the building in the form of large cladding panels.

In total, Albion Stone supplied 68m³ of Bowers Whitbed for the 9,700m² building.

The overall construction cost of the project was £8.2 million.
