

ALBION STONE

portland stone - naturally

**Portland Marina
Dorset**

Client:
Portland Marina

Portland Stone:
Jordans Basebed
Jordans Whitbed
Grove Whitbed

Scope of Project:
Development of Portland
Marina for London's 2012
Olympic sailing event.

The £27 million Portland Marina development has been open since 2009, and is now frequently described as 'the best marina ever'.

Weymouth and Portland National Sailing Academy is the first venue to be ready for the London 2012 Games and is already in use delivering a legacy of world-class sailing facilities for the local community.

All of the London 2012 Olympic and Paralympic Games sailing events will be hosted at WPN SA and the adjoining Portland Marina, which offer some of the best sailing conditions in the world.

Albion Stone supplied Grove Whitbed for paving, and Jordan's Basebed and Whitbed for internal flooring and skirting.

Albion Stone Restoration installed the stones on site.
