ALBION STONE

# 25 Hanover Square, London W1

Architect/Designer:  
**OSEL Architects**

Client:  
**NCC Properties**

Main Contractor:  
**Heymills**

Location:  
**Hanover Square, London**

Portland Stone:  
**New Independent Whitbed  
and Grove Whitbed**

Scope of Project:  
**Demolition and construction  
of new seven storey multi-use  
development.**

Situated in the heart of London's West End, 25 Hanover Square is a new build, seven-storey office and retail development with a Portland stone façade.

Albion Stone sent through samples to be agreed and accept by the planners before a quarry visit could be arranged.

Once the stone samples had been approved, the project team visited Albion's quarry to view the large samples panels and agree the range of stone for the project.

Albion Stone supplied 8m<sup>3</sup> worth of slab in the form of quoins, piers and reveals, 4m<sup>3</sup> of New Independent Whitbed and 4m<sup>3</sup> of Independent Grove Whitbed.

The total project value was £4.3 million.

**Graham Potter from sub-contractor Trans-Am Contracting said that,**

**'Albion provided only the best fit slabs for the project.'**
